

**\*\*MEDIA ALERT\*\***

**ACTEL HIGHLIGHTS NONVOLATILE FPGAS AT MAPLD 2008**

Actel Corporation (NASDAQ: ACTL) will provide insight, technical direction and design expertise at the 2008 Military and Aerospace Programmable Logic Device (MAPLD) Conference, being held September 15-18 in Annapolis, Maryland. Continuing to advance the use of FPGAs in the military and aerospace industry, Actel will discuss a range of topics – from characterization and qualification to power-conscious design methodologies – during several presentations and poster sessions at the conference.

Topics of discussion will include:

- Power-Conscious Design Methodologies
- Skew Analysis of Routed Clocks in Actel's SX32A and RTSX32SU FPGAs
- SET Characterization of Nonvolatile FPGAs
- Using Mixed-signal FPGAs to Implement System Management in MicroTCA Applications
- The RTAX-S Design Checklist
- Space Qualification Updates

**Where/When:** September 15-18, 2008  
Doubletree Hotel  
Annapolis, Maryland
