Re: Addition of Avnet Logistics (Hong Kong) for Shipping, Receiving, and Programming

Dear Actel Customer,

This notice is to inform you that Actel will be utilizing the services of Avnet Logistics (Hong Kong) for Shipping, Receiving, and Programming operations, in addition to our Mountain View California location.

Actel is in the process of completing a quality review in order to approve Avnet Logistics in Hong Kong. We expect the quality audit to be finalized by April 2010.

Avnet Logistics, an integrated logistics service provider and division of global technology distributor Avnet, has achieved certification to current relevant industry quality standards and was awarded the 2007 Logistics Award for medium enterprises, presented by the Logistics Awards Hong Kong Organizing Committee. Avnet Logistics is the first in Asia's electronics distribution industry to receive this prestigious recognition. More information on this supplier is available on the Avnet Logistics website:

<https://logistics.avnet.com/webReporting/home.jsp>

We will begin using Avnet Logistics in April 2010 for shipping and receiving to better streamline our supply chain. We will begin using the Avnet Logistics programming facility in October 2010.

This will affect all Actel products with the exception of ITAR-controlled products, M-Temp products, B-Flow products, RT products, and Automotive Grade products. These products will remain in Mountain View for all processing.

For questions, please contact your local Actel sales representatives. For information on the office nearest you, refer to the sales office listing on the Actel website:
